STUDENT AGREEMENT FOR USE OF DISTRICT COMPUTERIZED INFORMATION RESOURCES

In consideration for the use of the Hartford Central School District's Computer System (DCS), I agree that I have been provided with a copy of the District's policy on student use of computerized information resources and the regulations established in connection with that policy. I agree to adhere to the policy and the regulations and to any changes or additions later adopted by the District. I also agree to adhere to related policies published in the Student Handbook.

I am the parent or guardian of _____, the minor student who has signed the District's agreement for student use of computerized information resources. I have been provided with a copy and I have read the District's policy and regulations concerning use of the DCS.

I also acknowledge receiving notice that, unlike most traditional instructional or library media materials, the DCS will potentially allow my son/daughter student access to external computer networks not controlled by the Hartford Central School District. I understand that some of the materials available through these external computer networks may be inappropriate and objectionable; however, I acknowledge that it is impossible for the District to screen or review all available materials. I accept responsibility to set and convey standards for appropriate and acceptable use of technology to my son/daughter when he or she is using the DCS or any other electronic media or communications, including my son/daughter's own personal technology or electronic device on school grounds or at school events.

I agree to release the Hartford Central School District, the Board of Education, its agents and employees from any and all claims of any nature arising from my son/daughter's use of the DCS in any manner whatsoever.

PLEASE KEEP FOR YOUR RECORDS

HARTFORD CENTRAL SCHOOL DISTRICT STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES (ACCEPTABLE USE GUIDELINES)

Program Implementation

The Hartford Central School District recognizes that effective use of technology is important to our students and will be essential to them as adults. Consequently, the School System will provide access to various computerized information resources through the District's computer system (DCS hereafter) Consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, "on-line services," "WiFi" and the "Internet." The District shall provide personnel support for such usage.

The DCS is for educational and/or research use only and must be consistent with the goals and purposes of the Hartford Central School District. The standards of acceptable use as well as prohibited conduct by students accessing the DCS, as outlined in District policy and regulation, are not intended to be all-inclusive. Students are held to the same standards of good behavior whether they are using school computer networks or any other electronic media or communications, including a student's own personal technology or electronic device while on school grounds or at school events. In addition to the specific standards of student conduct delineated in this regulation, the general requirements of acceptable student behavior expected under the District's school conduct and discipline policy and the *Code of Conduct* also apply to student access to DCS. Communications on the network are often public in nature. General school rules for behavior and communications apply.

Legal and ethical implications of software use will be taught to students of all levels where there is software use. In addition, the building principal or his or her designee and/or classroom teacher will be responsible for informing District students of rules and regulations governing student access to the DCS.

In order to match electronic resources as closely as possible to the District curriculum, District personnel will review and evaluate resources in order to offer "home pages" and menus of materials which comply with Board guidelines governing the selection of instructional materials. In this manner, staff will provide developmentally appropriate guides to students as they make use of telecommunications and electronic information resources to conduct research and other studies related to the District curriculum. As much as possible, access to the District's computerized information resources will be designed in ways which point students to those which have been reviewed and evaluated prior to use. While students may be able to move beyond those resources to others that have not been evaluated by staff, students shall be provided with guidelines and lists of resources particularly suited to the learning objectives.

Standards of Conduct Governing Student Access to the District Computer System

Inappropriate use of the DCS may result in disciplinary action, including suspension or cancellation of access. Prior suspension or revocation of access to the DCS, students will be afforded due process rights. Each student who is granted access will be responsible for that usage. The DCS is provided for students in support of their educational program and to conduct research and communicate with others. Student access to external computer networks not controlled by the District is provided to students who act in a considerate and responsible manner. Likewise, students are expected to observe the same standards of behavior when using their own personal technology or electronic devices on school grounds or at school events. Individual users of the District's computerized information resources are responsible for their behavior and communications over the District computer network. It is presumed that users will comply with District standards and will honor the agreements they have signed.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be Harford Central School District property and subject to control and inspection. The computer coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of District Policy and regulations regarding student access to the DCS. Students should **NOT** expect that information stored on the DCS will be private.

During school, teachers will guide students toward appropriate materials. Outside of school, parents or guardians bear the responsibility for such guidance as they do with information sources such as television, telephones, movies, radio and other potentially offensive/controversial media.

In addition to the District's general requirements governing student behavior, specific activities shall be prohibited by student users of the DCS including, but not limited to, the following:

If a student or a student's parent or guardian has a district network account, a non-district network account, or any other account or program which enables direct or indirect access to a District computer, any access to the DCS in violation of District policy and /or regulation may result in student discipline. Indirect access to a District computer shall mean using a non-district computer in a manner which results in the user gaining access to a District computer, including access to any and all information, records or other material contained or stored in a district computer.

Sanctions

1. Violations may result in suspension and/or revocation of student access to the DCS as determined in accordance with appropriate due process procedures.
2. Additional disciplinary action may be determined at the building level in accordance with existing practices and procedures regarding inappropriate language or behavior, as well as federal, state and local law.
3. When applicable, law enforcement agencies may be involved.

Security

Security on any computer system is a high priority, especially when the system involves many users. Users of the DCS identifying a security problem on the District's system must notify the teacher in charge. A student is not to demonstrate the problem to others. Attempts to log on to the DCS as a computer coordinator may result in restriction or suspension of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the DCS. Further, any violations regarding the use and application of the DCS shall be reported by the student to the teacher in charge.

Notification

The District's Acceptable Use Policy and Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.
